Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 39-41, 43, 44, 46-49, 51, 52, 54-63 are rejected under 35 U.S.C. 102(b) as being anticipated by Weelink U.S. Patent 5,111,770.

Weelink teaches an animal cubicle partition which is structurally similar to the Applicant's claimed free stall divider for dividing an open area into separate stall. More specifically, the apparatus of Weelink includes a base 4, as shown in Figure 2. Two dividing elements 2 and 3 are coupled to the base by a mounting portion 10. The dividing elements extending away from each other (5) and along stall spaces of two adjacent stalls. Regarding claims 40, 41, 48, 49, 51, 52 and 54, bolts (unnumbered) provide a means for removably and permanently coupling the dividing elements to the base. As for claims 43, 44 and 46, 58, 59 and 63, see the related figures. Regarding claim 59, as seen in Figure 2, the leg is welded to the base 4.

Response to Arguments

The Applicant argues that the reference to Weelink does not teach "double stalls for two facing resting animals as claimed in claims 39, 47 and 55. However, it is the Examiner's position that this argument is directed to claim language which is only functionally claimed in claims 39, 47 and 55. It is possible that two facing animals can

use the device of Weelink, and as such, this argument is not believed to patentably distinguish the claim invention over the reference to Weelink.

Response to Amendment

Applicant's arguments filed 07-25-2005 have been fully considered but they are not persuasive.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
